

# ReSpeaker Pro Case Assembly Instructions

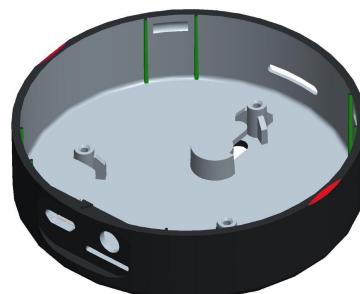

Top cap

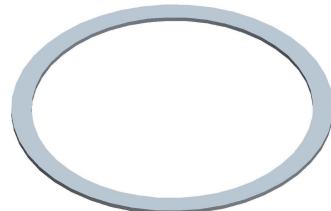

ReSpeaker Mic Array

ReSpeaker Core

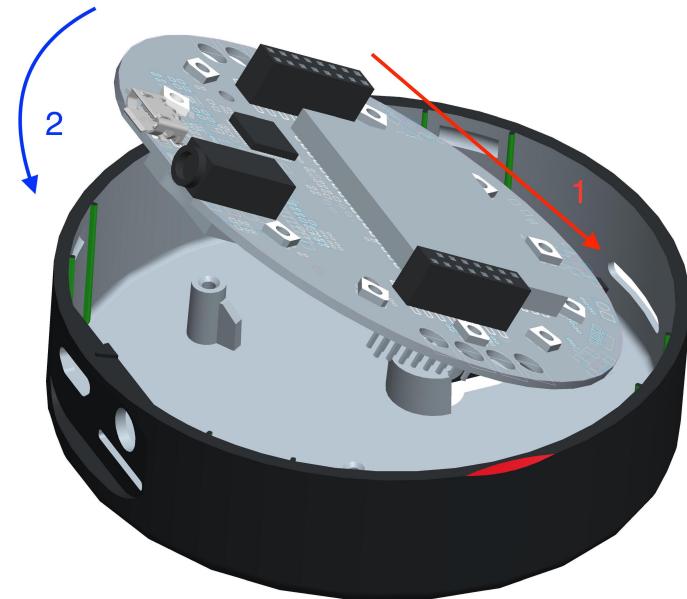

Bottom case

Rubber mat

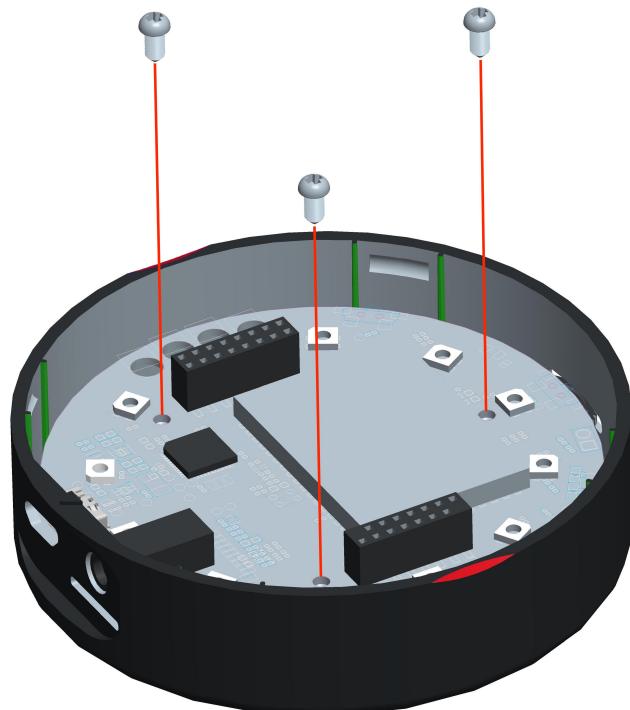

## Step 1. Install ReSpeaker Core into the bottom case

- 1.Tilt ReSpeaker Core and install the navigator button into the hole.
- 2.Spin ReSpeaker Core to put it down.

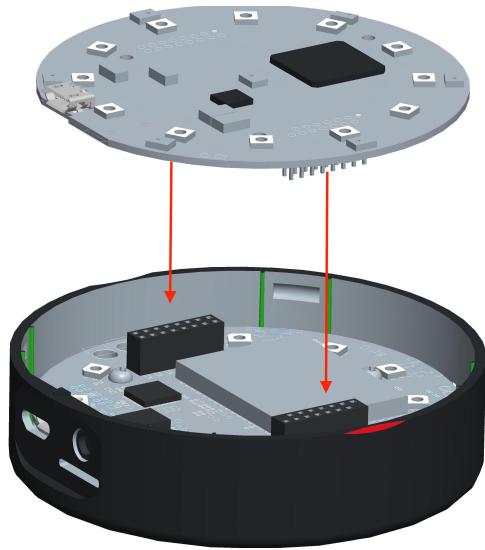

## Step 2. Fix ReSpeaker Core with 3 screws

- Make sure the audio jack and Micro-USB port on the board align with the holes on the bottom case.

### Step 3. Insert ReSpeaker Mic Array

- Please confirm the insertion direction of ReSpeaker Mic Array.

### Step 4. Snap the top cap

- Align the alignment marks on the top cap and bottom case, snap them together.

## Step 5. Stickup rubber mat

- Tear off the PET sheeting on the rubber mat.
- Stickup the rubber mat to the bottom case and make align it with the red circle.

## Step 6. How to open the top cap

- There are 2 grooves on the side of the bottom case. Place your thumb in a groove and open the top cap.
